

K-love radio station is a major part of my day it is 99% of what I listen to and many in my community also. If K-love were not available to us I don't know what I would do there is not another one like it.
K-love is a station my whole family can listen to anytime day or night and not have to worry about the content of what we are hearing .
They are encouraging and uplifting to me everyday and I know to many more.
